### FLEETING PROSPERITY IS FOOL'S PARADISE

Don't Let Smoke From Munition Factories Cloud Your Brain With Belief It's Abiding.

### PROTECTION, OUR BULWARK

Forget Not the Dire Conditions Which Depressed This Country Under the Democratic Free Trade Tariff Prior to the War—They Will Return to Plague and Hunger Unless the Republicans Are Restored to Power.

"When we contemplate industrial and commercial conditions," says Mr. Hughes, "we see that we are living in a fool's paradise." This is the condition to which the administration and its supporters have deliberately closed their eyes. When the war cloud broke over Europe, this country was experiencing the most serious depression it had known since 1893, when the Democratic party and its policies were in full control of the United States.

Suddenly there came from over the sea a demand for munitions of war, clothing, food, supplies, everything needed by vast armies and by countries whose sons were taken from the field and the workshop, never to return.

As a result our exports and the balance of trade in our favor have reached figures far surpassing any ever before known. Temporarily, especially in the East, there is no lack of work at high wages, for Europe must pay whatever price America asks. No thoughtful person would imagine that this condition is anything like real prosperity. How false it is, we in Oregon, who have the clearer vision, because not clouded by the smoke from munitions factories, have fully felt and fully appreciated.

What the Republican candidate for president says about it the Democrats know to be true:

"Our opponents promised to reduce the cost of living. This they have failed to do, but did reduce the opportunities of making a living. Let us not forget the conditions that existed in this country under the new tariff prior to the war. Production had decreased; business was languishing; new enterprises were not undertaken; instead of expansion there was contraction and our streets were filled with the unemployed."

The suspension of these conditions is not nation-wide, only sectional, and depends upon the duration of the war. Those who think otherwise are, indeed, living in a fool's paradise.—Portland (Ore.) Telegram

### JUST LIKE THE DEMOCRATS

(Lexington Herald)

Perhaps one reason why the Hughes meeting here was so disappointing to our good local Republican friends, who worked so faithfully and so well to bring a vast crowd to Lexington to "demonstrate," lies in the fact that there were no burgeois and no free "doings." Our own personal observation of the Kentucky Republican in his normal state has been that he will not demonstrate up to full capacity until you put something into his stomach or into his hand.

The Y. M. C. A. in Minneapolis, Minn., raised \$1,150,000 in just eight days. We, however, would be quite well satisfied if we could raise one-tenth of that amount from our delinquent subscribers in eight years.

### DR. T. R. WELCH IS SUCCESSOR TO COL. L. M. MAUS

Physician of Nicholasville, Brother-in-Law of Governor Stanley, Head of Tuberculosis Board—"Wet" State and White Plague Hand in Hand, Says Retiring Officer.

Frankfort, Ky., September 7.—Dr. T. R. Welch, of Nicholasville, was the unanimous choice of the State Tuberculosis Commission in his election for secretary. He is the brother-in-law of Governor Stanley. He succeeds Colonel L. M. Maus, a retired army officer. A large number of applicants for the position of secretary were received but Dr. Welch was considered the most desirable and one of the most capable men in Kentucky for the position. Dr. Arch Dixon, of Henderson was elected vice president of the commission.

The commission adopted an order reducing the salary of the secretary to \$2,000 a year, and requiring him to reside in Frankfort. The present secretary of the commission \$3,500.

"You can not eliminate tuberculosis in Kentucky until you eliminate alcohol," said Colonel L. M. Maus, retired secretary of the State Tuberculosis Commission, yesterday, pertinent to his year of work and study in the State.

Colonel Maus, who was retired as senior officer in the medical corps of the United States army last summer after forty years in the service, has made a life study of eugenics, heredity and racial degeneracy. He says that during his extensive study he has noted that alcohol is the most potent factor in the downfall of the human race.

People Favor Temperance "There will never be any considerable progress or a high standard of morals among all the people of Kentucky until the use of alcohol as a beverage has been swept out of the State," continued Colonel Maus. In his work with the Tuberculosis Commission he says that he has found it necessary to fight for the cause of temperance.

"Furthermore," he continued, "wherever I have been in the State I have found that the people generally favor temperance and prohibition, and I believe that 75 per cent of the voters of Kentucky would cast their ballots for the cause if an election were called now or soon. Many persons addicted to the use of alcohol would vote for its removal from the State, knowing that they are not strong enough morally to resist it."

When asked for his opinion of the recent selection of county election commissioners Colonel Maus said: "I believe it shows the handwriting on the wall. We are now about to see the results of a great temperance wave that is sweeping Kentucky. It means also a purity in politics. It is evident fact that a 'wet' State and impure politics go hand in hand."

Will Remain in Kentucky Colonel Maus will remain in Kentucky to take up the study of racial degeneracy, eugenics and heredity of one of the large foundations of the country. He said recently that he would devote his entire time to a study of these problems, and will lecture throughout the State.

The hungry fellows always get us little end of an argument at a banquet. Try it yourself.

and other methods of instruction to relieve the situation. From his observations he has concluded that when there is prohibition in Kentucky there will be a material increase in its prosperity; that sickness will decrease 50 per cent, while there will be a corresponding increase in longevity.

Mrs. Maus, who was formerly Miss Anna Page Russell, of Frankfort, also has done a great amount of work and will continue to lead aid to Colonel Maus in his work. She is a daughter of Captain John W. Russell, deceased. Investigations of the Tuberculosis Commission since its foundation has brought out the information that tuberculosis in Kentucky exists largely among the poorer classes and is the result of the use of alcohol and poor housing, Colonel Maus said. Much has been done by the commission to relieve the situation, such as organizing health and welfare leagues, while have provided visiting nurses who have helped the poor classes considerably.

### Great Future Predicted

Division of the State into nine sanatorium districts, one of which has already been organized successfully at Covington, and two other districts about ready for permanent organization are among the tangible results of the commission's work in the past year.

### POSITIONS REACHED BY THE ALLIES WOULD BE OF GREAT ADVANTAGE THIS WINTER, SAYS OFFICER.

With the British Army in France, September 5 (Via London, September 7).—The British feel that their uphill work in this latest offensive is over, with the exception of the taking of Ghinchy. For more than two months now their fight has been one to gain high ground over the broad commanding front. Guillemont places them in possession of the last of the old second line trenches, and from the Somme to Thiepval the Germans now have been blasted out of their old positions.

"This is not the only point in our favor," said a British staff officer. "The Germans chose their ground when they built the line of the fortifications, which they consider by their own admission to be invulnerable. When the British first smashed thru the Germans said that we were in a sack. So we were in one sense. But we had to make an opening in that solid line of defense, as a start in our plans. We knew the hardest work would come after the great main attack, and this is so far accomplished that it is the Germans now who are in a sack."

"If we prefer to end the summer of offensive and wait for spring, when we shall have quadruple the number of guns and so much ammunition that we shall have to keep up daily a battle of guns on four time the length of the present front, with all the shell fire of the biggest day in this summer's offensive in order to consume the supplies arriving daily across the channel, why our present positions of artillery and infantry advantage on the Somme front in settled trench warfare means simply that we could kill the Germans to every Briton the Germans kill. This was the first step. What the others are to be only the commanders of the allied armies know."

The hungry fellows always get us little end of an argument at a banquet. Try it yourself.

### STRING OF INTERROGATIONS TO FEASE WILSON IDOLATERS

Questionnaire No. 1.—Will All the Wilson Notes Be at His Notification?—How Did Fool Free Trade Hit Your Line of Business Just Before the Battles Began?—When the War Babies Die Will You Weep at the Funeral?

The question habit grows. You may ask a question of any one. Why should the dear old public escape? Here are a few from The New York Sun for the man in the street:

Do you approve of the Rivers and Harbors act?

Do you want four years more of watchful waiting with the National Guardsmen undergoing military training in a tropical climate in mid-summer?

Do you hold that the duty of the United States is to serve humanity and let its own citizens be killed and outraged?

Do you feel proud of notes with nothing behind them?

What do you think of the Vera Cruz adventure?

Would you like to have been an American soldier at Carrizal?

Do you love Carranza?

Do you believe in a financial regime conducted largely in the interest of one section of the country?

Do you desire to cut the Philippines loose in order that Japan may gobble them?

Do you want four more years of Daniels?

Do you approve of wrecking the diplomatic service to provide jobs for deserving Democrats?

Are you in favor of inflation?

Do you believe in preparedness for a flood of cheap European wares as seen as peace comes?

Have you noticed the significant increase of imports in the past year, despite the war?

How did fool free trade hit your line of business before August, 1914?

And your friends?

Were you all cheered up by the Underwood tariff bill?

Do you think the doubling of the income tax is fair while millions' worth of competitive imports come in free?

Where are you going to be when the war babies die and business slips back to the cold, hard, normal basis?

Can you conceive of any possible good to you or to the country from another Presidential term like the present one?

Will you perpetuate sectionalism, greed, ignorance, stupidity—general ineptitude in Congress?

### BE KIND TO YOUR HORSE

(Washington Times)

The Washington Humane Society has sent out an appeal to the owners and drivers of horses, seeking their co-operation in making life more bearable for these faithful beasts during the hot weather. The following are the suggestions offered, and all of them are good:

Rest your horse frequently and see that he has water often.

Do not let him stand in the hot sun. If he is required to stand for any length of time, find a shady place, at least a place where he may have his head in the shade.

If your horse is overcome by the heat, get him as soon as possible into a cool, shady place, but in the open air; bathe his head and rinse his mouth with cold water. If necessary, apply ice to the head and along the spine.

In the summer time the stable should be well ventilated, and the doors and windows screened, as the horse is often kept from his night's rest by being worried by mosquitoes and insects.
